

## Pre-Kindergarten Homework

Pre-K students will be receiving a weekly homework calendars. These calendars (along with the corresponding work packet) will be secured in the middle of the folder. Each scheduled homework day (Mon., Wed., Thurs.) will have one or two assignments for students to complete. Some of the assignments will be written while others are activities to be done orally or with materials from home. All written assignments will have a page in the packet for your child to complete the work. Please help your child complete the work and **return the folder every Friday** so I can check assignments. I will send folders home again on the following Monday.

### Book Club Forms:

In addition to the written homework, your child will have a monthly book list in the pocket of their folder. Children should be read to by an adult at least once a day. I am sure this is routine for many of you so I thought to help encourage the importance of reading, it should be reinforced at school. After reading to your child, please write the title of the book on the monthly book list. If you read a book more than once, please indicate the number of time read next to that title. At the end of each month, each child who has filled their book list will receive a prize. We will be graphing the books each child read at home as a fun contest throughout the year. At the end of the year, the children with the highest amount of books read will be acknowledged. They will also receive certificates during the year. Together we can help your children love to read!

**Thank you for you help! It is going to be a great year!**
